#### **BACKGROUND INFORMATION**

The Site is located at 1000 Goodrich Blvd, Miami, Oklahoma. The Site includes an abandoned former tire manufacturing plant that has known areas of asbestos contamination. The former B.F. Goodrich facility in Miami, Oklahoma operated as a manufacturer of rubber tires from 1944 to 1986. In 1986, the facility was closed and manufacturing activity ceased. Due to the presence of asbestos in multiple structures on the site, abatement and removal of the asbestos was required by Oklahoma Department of Environmental Quality (ODEQ). Some initial attempts to abate/remove the asbestos were conducted. All cleanup work ceased in late 2014.
